# Why Shining Falls?

## The Fishing of Course!

Walleye is considered by most anglers to be the best tasting freshwater fish... and boy do we have walleye! They gather in big schools on the many spawning grounds, reefs and drop-offs throughout the season.

Our monster Northern Pike are highly sought after for their fight and sheer size. With our catch and release conservation policies, we ensure that our excellent fishing continues for generations to come.

## Wildlife

With over 60 species of birds and resident moose, black bears, woodland caribou and deer, Shining Falls Lodge offers a great opportunity to see Canadian wildlife in their natural habitat.

## The Shining Falls

Shining Falls is just around the corner from our lodge. It is breathtakingly beautiful with well-maintained portage trails. Canoes and kayaks are kept below the falls to allow guests to explore. Paddle around the bend to see another set of falls, catch a few fish or play in the current below the rapids.

## The Calm

Family lake is a long body of water with lots of sheltered bays and channels making it easy for you to go all day without seeing another boat. Our island alone has over 4 miles of shoreline and a pristine interior to explore at your leisure. Fishing is the main draw of our lodge but it is certainly not the only activity to do once you are here! You can unwind in the hammock on the beach. Or enjoy activities such as swimming, canoeing or kayaking that are easy to do right in front of your cabin.

# Fantastic Fishing

## Northern Pike

One of the most thrilling freshwater catches are the 40+ inch monster Northern Pike that call Family Lake home. Just try to catch your breath as one of these big fish hits your lure and runs with it. Our Northern Pike catch and release policy ensures that there are plenty of opportunities for even the novice angler to hook one of these giants.

## Walleye

Family Lake has world class walleye fishing. These sought after fish school around the numerous reefs, shoals and ledges found in the lake and are easy to catch from mid-May to late September.

## Other Species

Family Lake is also home to many other species of fish. You may also catch Yellow Perch, Sauger, Lake Whitefish, Mooneye, Rock Bass, and Sucker.

## The Boats

Our 14 and 16 ft Aluminum Lund Boats are equipped with quiet and reliable 15 and 20 hp 4-stroke Yamaha outboards.

Each boat is equipped with a Humminbird depth-finder, swivel seats, landing net, stringer, paddle and safety kit.

Experience the thrill of catching and releasing a trophy Northern Pike

## Pristine Wilderness

Shining Falls Lodge is located on beautiful Family Lake. A breathtaking 60 mile flight north of Bissett Manitoba, where hundreds of miles of pristine shoreline await you. Here lies the watershed basin of three majestic rivers. Huge volumes of fresh water flow through the Berens, Dogskin and the Pigeon Rivers making this one of the best fish producing systems in the world. Outstanding Walleye and Northern Pike fishing is just a cast away.

Imagine the satisfaction of releasing 50 to 100 Walleye in one day

# Great Location

## Location, location, location

We are located on Family Lake deep in the Canadian wilderness. No roads lead to Shining Falls Lodge. Your wilderness experience begins with a 30 minute floatplane ride over some of the most beautiful and rugged landscape Canada has to offer. Our island lodge is located on a beautiful sand beach in a sheltered bay. Our lodge gets its name from Shining Falls, a breathtaking set of waterfalls a short boat ride from the main dock. Family Lake is a very large body of water with lots of bays, channels and mid lake humps

## "Land of the Caribou"

Our lodge sits in the northwest corner of Atikaki Wilderness Park. Development is restricted in this huge protected wilderness area. Atikaki is a cree word meaning "land of the caribou." Not only will you find woodland caribou here, but also loons, bald eagles, great gray owls, wolverine, moose, deer, black bear, timber wolves, otter, beaver, marten, fisher, lynx, white pelicans and many, many more northwoods birds and mammals of the Northern Boreal Forest.

An island of comfort,  
deep in the Atikaki Wilderness

## A Beautiful Day

At Shining Falls Lodge, every day is unique. We start your day by delivering fresh, hot coffee to your private cabin. Seeing a wisp of smoke in the distance will remind an American Plan guest that shore lunch is about to be served. Time flies when you're having fun. When evening approaches, you head back to the lodge for dinner and some big fish stories. After dinner you can head back out for a relaxing evening of fishing. Your cleaned cabin and comfy bed awaits you at the end of the day.
